

Rapidtek offers connectors and quality RF adaptors designed to work at radio frequencies ranging from a few MHz to 110 GHz. It can perform in rugged, challenging environments while maintaining low insertion loss, superb voltage standing wave ratio, other mechanical and electrical functions.

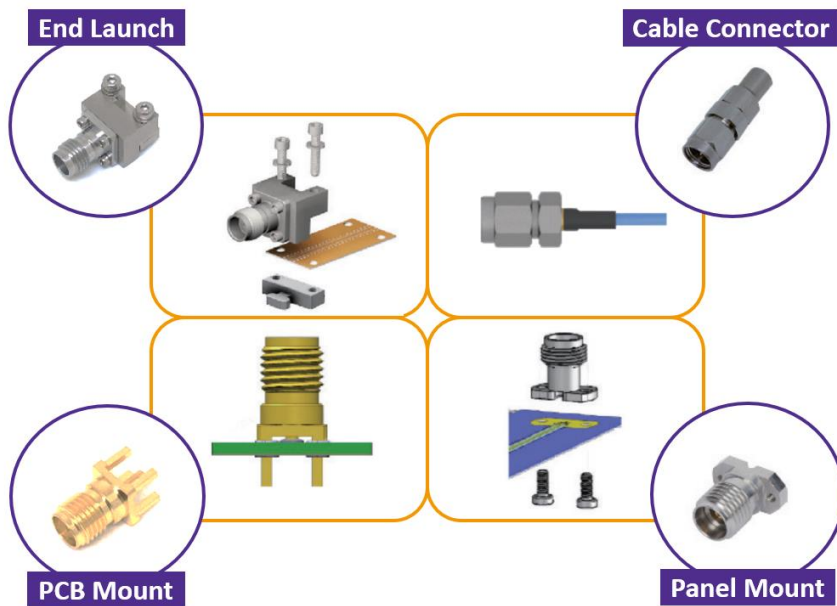

RF Connector

Key Features

- Frequency up to 110GHz.
- VSWR <1.3 @18GHz, <1.5@67GHz

Application

- Military
- Internet of Things(IoT)
- Communications
- Satellite
- Aerospace

RF Connector Type & Method

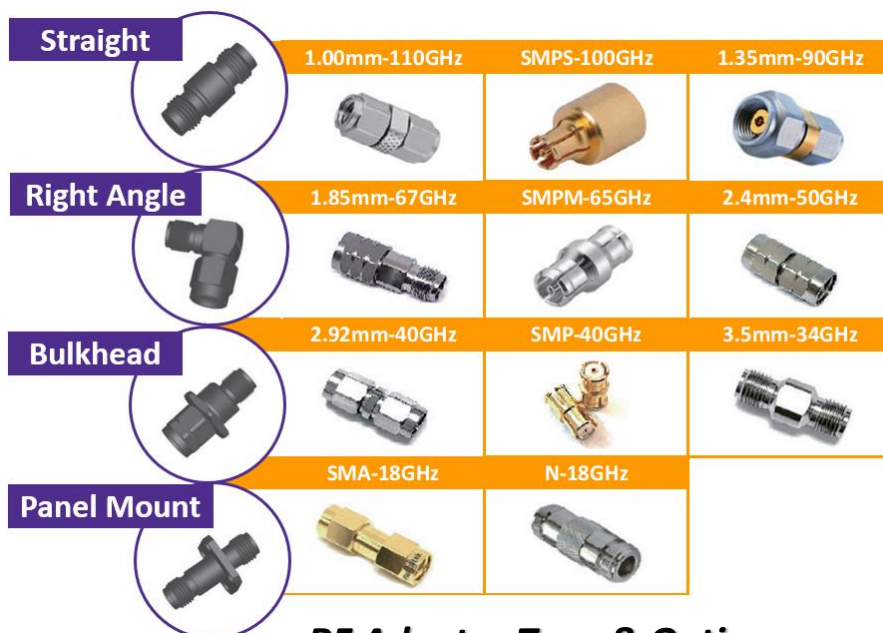

RF Adaptor

Key Features

- Excellent VSWR
- Various selection types

Application

- Internet of Things(IoT)
- Communications
- Aerospace

RF Adaptor Type & Options
